ANTISEMITISM IS EVERYONE'S CONCERN

 **DATE**
April 19, 2023

 **TIME**
7-9 P.M. EDT

What is antisemitism, and why is it everyone's concern?

Why is antisemitism so confusing and difficult to understand or talk about?

Please join us via Zoom on Wednesday, April 19, 2023, 7-9 p.m. EDT (UTC-4), Cherie R. Brown, Founder & CEO of the National Coalition Building Institute (NCBI), will present Let's Talk Series: Antisemitism is Everyone's Concern.

This presentation offers a working definition of antisemitism. It explains how antisemitism is used to divide groups from each other and how it hurts everyone—Jews and non-Jews alike. It describes why antisemitism is particularly harmful to working-class people and how it is used to shield those who profit from an unfair system. And it concludes with action steps that Jews and allies can take to eliminate antisemitism.

Before the Event

All registered participants will have access to a brief pre-event survey that allows questions to be submitted to our speaker.

After the Event

All registered participants will receive a post-event email including a survey and additional resources. A recording of the event will be publicly available on the Center website, in the days following our event.
